Examiner's Statement of Reasons for Allowance

1. Claims 1, 4, 6-10, and 14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 1, and 13:

The present invention is directed to an embedded conformal antenna.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, and 13, the prior art does not anticipate, nor does it suggest, the details that are claimed in the independent claims. Particularly when the claims are interpreted as argued by applicant on page 6. These details are the same as disclosed in applicant's specification. These details, as now interpreted by the examiner in view of the applicant's remarks, that are not shown in the prior art include the support including a crossed pair of planar center-fed end-loaded bent-dipole radiators, said dipole radiators lying in a plane, with said radiators being bent out of said plane at the distal ends thereof, said radiators being structurally embedded in a ground plane on top of a cavity having conductive sidewalls, whereby broadband, dual independent polarized, and hemisphere field-of-view coverage are provided.

Claims 4, 6-10 are allowed for depending on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huedung Mancuso whose telephone number is (571) 272-1939.
